Alba was founded in 1987. We have a day center programs low, medium and high demand and two employment programs, one of the ordinary company labor insertion and the other is a therapeutic Occupational Program including operator training gardening and insertion in the brigade cleaning riverbeds.

When the patient attends the center for the first time is assigned a therapist who accompany him throughout the therapeutic process.

Program low demand: the patient is in active use and harm reduction workshops are conducted, occupational workshops.

Program average requirement: the patient begins the process of withdrawal where management workshops emotions and workshop currently performed. Analytical control .

Program High demand: the patient is abstinent and performs therapeutic groups free time management and relapse prevention. Analytical control

Once the patient is abstinent job placement process begins.

Other services are: dining room, laundry, lots of food, wardrobe
