

Triple R project

Handbook on social reintegration

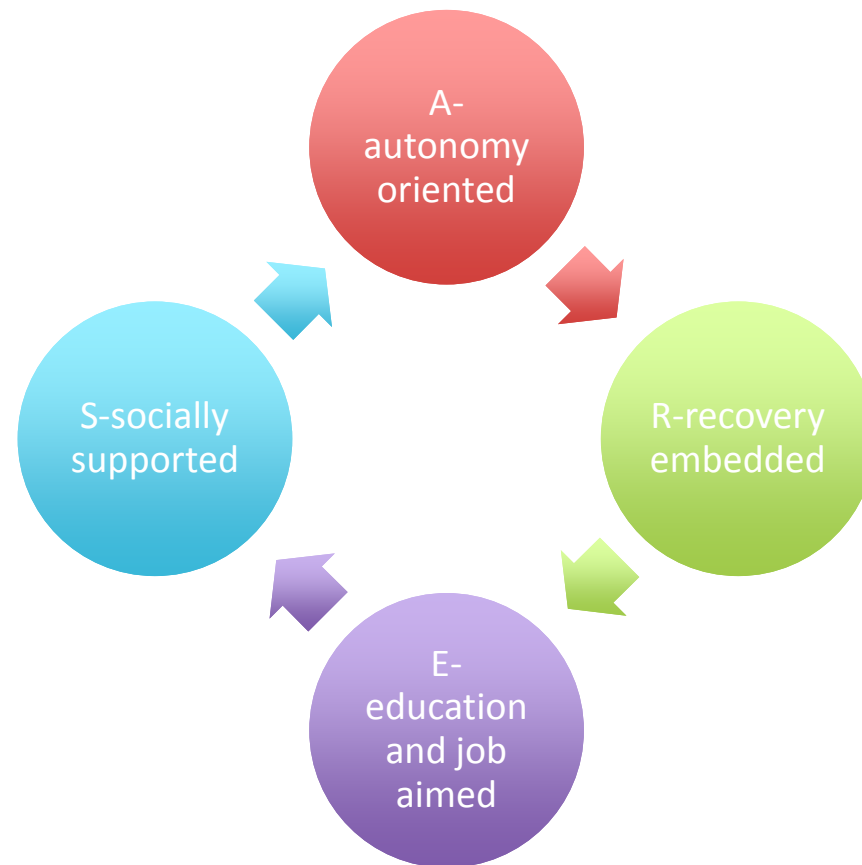

Kristina Blixt – Basta

15 November 2017 - Zagreb

Co-funded by the European Union

The Triple R ARES model

The Triple R ARES model

A-autonomy oriented

- Individualized
- Identify key areas
- Learn how to manage time
- Relapse and recidivism prevention

The Triple R ARES model

R-recovery embedded

- Social reintegration – recovery
- Education and job training activities
- Social investment for the future

Co-funded by the European Union

The Triple R ARES model

E-education and job aimed

- Work and employment
- Vocational training / education
 - Supporting self-esteem
 - Creating opportunities for a sustainable livelihood
 - Sustainable social reintegration

The Triple R ARES model

S-socially supported

- Supportive environment in the social reintegration phase
- Emotional support

Co-funded by the European Union

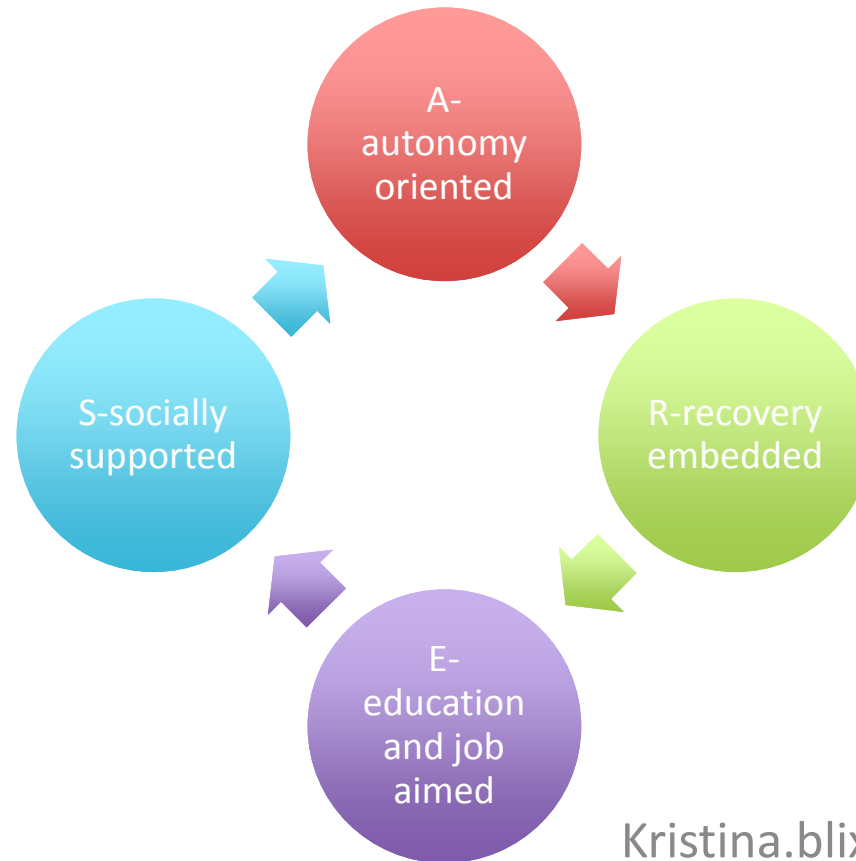

Suggestions for practitioners

- Recovery and social reintegration
- Individualized approach
- Education, training, work & employment
- Social activities
- Social support - families

Suggestions for policy makers

- Social reintegration – recovery process
- Coherent planning for the individual
- Promote real job opportunities, not welfare
- Promote affordable housing
- See each individual as a resource

The Triple R ARES model

Thank you!
