h. 6.00 pm _ Transfer back to the hotel

Dinner Free Time

Day 4. Training 1st July 2016

h. 8.30am_ Pick up at your hotels and transfer to San Patrignano

h. 9.00am_ welcome coffee and Wrap up meeting:

Sara_ 29th july established deadline to present contribution to the handbooks; necessary to define the date of the visit in Croatia; necessary to present financial reports+

Alphonse_ +The activities with the guys has been really enjoying. We do the same with social workers.+%It is important to express feelings+

Varja_ %didn't like the activity in the laboratory, but I think that San Patrignano is a good way to help addicted people+

Bjorn_ +The activity with the guys was really nice! I was a little bit anxiousō Guys are very proud of what they were doing: they have hope!+%high quality of the products+%attention to the fact that every people have their endurance. You can't press everyone at the same level. In San Patrignano they understand they are doing this for themselves+

Daisy_ +Good organization. DE KIEM has the same population and the same way to help people. Here people seem to be more relaxed.+%Someone needs lifelong program+%At least 14 days Community Experience for people have to start to work in DE KIEM+%I love my job, I wouldn't do another job+

Maurizio_ +He works in the 1st phase of the rehabilitation program in CEIS.+%In San Patrignano I noted serenity of the people. In the laboratory people were happy, relaxed, playing.+

Massimo_ %importance of the use of the language: in San Patrignano I noticed that there is no community slang It is a signal of the connection with the real/external life. In CEIS, in 1993 I had a 2 months experience in the kitchen of the community. Live together is the therapy+

Ake_ +I have been here in other occasions, but this time I really lived the community. I learnt more than ever.+

Amalia_ %When I was in rehabilitation we were 8 of us. I'm really impressed from the efforts to organize all this. I was impressed from mums and children that could live together+

Darko_ +I am really impressed from the organization and the high quality of the production. People was spontaneous and natural. They gave me a good impression+

Paivi_ *For me the best experience was the activity in the laboratory. I really enjoyed+*

Zoran_ *The organization was something special. The idea of Vincenzo Muccioli is still alive. There is a perfect balance among rules, freedom, work, leisure. It is impressive that the transfer of the rules it is just oral. Leadership capacity. People are proud of what they are doing. The community is worked focused. The challenge is to reach the balance between economic and social mission (BASTA is a good example!)+*

Antonio_ *San Patrignano is a social enterprise, not a TC. TC have more structured therapy+ Really big social impact+*

h. 11.30am _Goodbye and Transfer to the Rimini railway station
